

I'm Lucky

The great big world goes 'round and 'round
The sun goes up and the sun goes down
We keep livin' from day to day
I look around me and I have to say...

Chorus

**I'm lucky spending my life with you
You know I'm lucky
And I know we're gonna make it through**

There's no one else in the world like you
And nobody does things the way you do
I wouldn't trade you for anything
You bring a smile to my heart and you make me sing

Chorus

Chorus

I'm lucky...
